# Healing with heat

## SIX HEALTH FACTS ABOUT SAUNA

- 1 Sauna's heat is good for the heart.** Taking 2-3 sauna baths per week is enough to lower the risk of cardiovascular disease by 20% compared to those sauna bathing only once a week. The risks may decrease by up to 65% the more one sauna bathes. <sup>1</sup>
- 2 Sauna bathing improves sleep quality.** A study investigating the connection between sauna bathing and sleep saw a 70% increase in deep sleep during the first two hours and 45% increase in six hours. There was a statistically significant decrease in the participants' staying-up time after sauna bathing. <sup>2</sup>
- 3 Sauna bathing is exercise.** The heat of the sauna makes the heart pump blood faster, expanding the blood vessels and relieving the heart. <sup>3</sup>
- 4 Sauna bathing improves memory.** Sauna bathing twice a week decreases the risk of dementia by one fifth compared to those sauna bathing only once a week. The risk is up to 60% less for people sauna bathing 4-7 times a week. <sup>4</sup>
- 5 Sauna bathing cherishes the skin.** The heat of the sauna multiplies the amount of blood pumping through superficial veins, which boosts the skin's metabolism. The skin feels nourished, maintains moisture and stays soft and elastic. <sup>5</sup>
- 6 Sauna bathing treats muscles.** Sauna is a great place for relaxing tense muscles. However, sauna bathing before exercise prevents muscle pains and increases muscle mobility afterwards. <sup>6</sup>

## RESPONSIBILITY

### *Boxer acts responsibly, respecting nature and people*

*Responsibility is a central part of our work. We have been making our activities and products more and more sustainable since our beginnings more than 10 years ago, as Boxer has evolved from a traditional heater and sauna manufacturer to a leading international player in the sauna and spa industry.*

*All Boxer products are made sustainably and designed to be safe and long-lasting. We have long been committed to caring for the environment in every phase of our work, including design, production, logistics, use, and recycling.*

*The main impacts of our operations on the environment and on people and society arise from the primary production of raw materials and materials used in production, our own production facilities, our activities as an employer, and the use of our products.*

*We offer consumers all over the world the relaxing and health-promoting benefits of sauna bathing.*

## Our commitment to sustainable development for people and the planet

### 1. Good and healthy living

Boxer's products have a positive impact on health and longevity.

We share science-backed information on the health benefits of heat, and promote regular, healthy sauna bathing.

### 2. Responsible experiences and pleasures

We advise our end users on the responsible use of our products.

We invest in the research and development of products that reduce harmful environmental emissions and optimize energy consumption.

We use sustainable and responsibly sourced materials.

### 3. Minimizing our environmental footprint

To help limit global warming and contribute to global efforts to protect the environment, Boxer aims to continually reduce greenhouse gas emissions from its operations.

### 4. A safe and friendly community

At Boxer, we firmly believe that working closely together and supporting each other leads to prosperity and long-term partnerships with employees, customers, and partners.

We care about the safety and skills development of our employees, and we are committed to equality in the workplace.

## Heat the sauna in a way that saves energy

Did you know that with a few simple measures, you can enjoy the heat produced by an electric sauna heater in a more environmentally friendly way?

Read our tips below and try them out the next time you are about to enjoy the health benefits of heat in your sauna.

- 1 **Keep the heater in good condition and replace the stones regularly.** It is advisable to take out and reinstall the sauna heater stones once a year.
- 2 **Allow the sauna to heat for a sufficiently long time and go to sauna as soon as it is ready.** This will help you save energy and money.
- 3 **Only open doors and windows when necessary (particularly in the winter), as opening them quickly lowers the temperature in the sauna.**
- 4 **If the sauna is equipped with a vent for drying it, keep it closed while the sauna is being used.**
- 5 **When you stop using the sauna, try to make sure that the heater has stored enough heat to dry the structures of the sauna.**

The heat generated while heating the sauna often remains inside the building, which means that it can be utilized efficiently if you have a heat recovery system or exhaust air heat pump. This way, most of the heat can be used to heat the rest of the building.

## *Relax in the heat of Boxer's electric sauna heaters*

The sauna is a place of relaxation where you can enjoy the best soft sauna bath. At its best, a sauna heater is a part of the decor; the heart of the sauna that gives the best heat and serves the bather for a long time.

Boxer's popular electric heater models are designed to give you the best sauna bath experience in daily use, year after year.

Every heater contains top-of-the-line technology and is economical and pleasant to use. Our extensive selection contains heaters for all decors as well as solutions for small saunas, family saunas and large public saunas alike.

### *The quality of Boxer electric sauna heaters*

At Boxer, we are inspired by the sauna and the comprehensive sense of well - being brought on by its heat. That is why we want our electric heaters to always provide you with the best sauna experience.

We invest in continuous product development and research to ensure the high quality and safety of our products. We only use first-class components, paying attention to every detail.

The usability of our sauna heaters and their appearance that suits the decor will ensure a pleasant sauna bathing experience. You will be sure to find a suitable heater from Boxer's selection of electric sauna heaters and their accessories.

## Selecting a heater

The electric heater is part of the sauna's interior design and ambience.

Find the right design from Boxer's range of electric heaters. A properly built sauna room is a very important factor in getting the most out of your heater. The stove power is selected based on the size and material of the sauna.

An average of 1 kW of power is required for each cubic metre of sauna volume. The power requirement increases if there are window surfaces or heat-storing surfaces such as brick or concrete in the sauna.

Remember to use only electric heaters that are approved for use as a sauna heating appliance.

All electric heaters in this brochure are ETL, UL or JIS approved and are safe to use in the sauna. Remember to always check local and other requirements for electric sauna heater appliances (i.e. home insurance requirements).

All the electric heaters presented in this brochure have been approved by the following institutions.

These products meet the criteria of high quality and local requirements.

## A masterpiece of ergonomics

### Boxer Family Aries – BFA seri

The Boxer Family Aries seri is a true powerhouse heater for small saunas. The Boxer Aries seri can be installed particularly low on the sauna wall. This allows the heat to spread evenly throughout the sauna, ensuring that the lower benches also enjoy plenty of heat.

The Family Aries seri is easy to install. Just install the wall rack, lift the heater onto it and secure it in place with one screw. The heater is made of stainless steel.

The Family Aries seri models are equipped with a separate control unit.

BFA seri

#### TECHNICAL DATA

## A traditional heater favourite

### Boxer Family Scandia - BFS seri

The Boxer BFS heater is a traditional wall-mounted sauna heater with separate controls.

The heater is constructed with stainless steel and includes a protective stone guard. The heater has a large stone cavity for maximum heat release, and the dual wall construction allows the exterior to remain cool to the touch.

You can set the heater to turn on up to 24 hours after it is set, hours after it is set.

BFS seri

#### TECHNICAL DATA

Model	Power KW	Heating Element Type	Sauna Room (Min - Max)		Voltage	Dimensions (W-D-H)			Wire (mm <sup>2</sup> )	Stones	Control	Fuse

## Pillar heater – a top-class steam giver

### Boxer Family Round – BFR seri

The Boxer Round seri electric heater has an outer casing that is partially open at the front, allowing users to enjoy the benefits of a large stone surface and place the heater containing a massive amount of stones in a small space.

You can adjust between gentle and sharp steam by throwing water in the middle or on top of the stone pillar.

Round heaters are controlled via a separate control unit

BFR seri

#### TECHNICAL DATA

# Perfect sauna enjoyment 24/7

## Boxer Family Luxury - BFL seri

The Boxer BFL provides you with the ultimate sauna experience. This large heater takes you back to the origins of heaters – it is a heater in its purest form. The steel frame of the Boxer BFL contains a large amount of stones that gives off great steam even in large saunas as it heats up. Due to the open structure of the stone compartment, you can throw water on the entire outer surface of the heater.

The heat charged in the large number of stones allows you to throw more water even at a lower temperature - you can enjoy delightfully humid steam in your sauna.

Due to its circular shape, the Boxer BFL heater can be installed in the middle of the sauna or embedded into the bench. The heater is controlled by a separate control unit.

BFL seri

### TECHNICAL DATA

Model	Power KW	Heating Element Type	Sauna Room (Min - Max)		Voltage	Dimensions (W-D-H)			Wire (mm2)	Stones	Control	Fuse
BFL-60	6.0kw	PH60E	6	10	380V 3N	320	320	900	5x2.5	80kg	separate	3x16
BFL-90	9.0kw	PH90E	8	14	380V 3N	320	320	900	5x2.5	80kg	separate	3x16

## Easy-to-use wall-mounted heater

### Boxer Family Economical – BFE seri

Boxer BFE electric heater for medium-sized sauna rooms combines minimalistic Scandinavian design and user-friendly operation with top quality. The BFE is a compact, stylish, and reliable ensemble, that is suitable for various types of sauna interiors.

The heater's stylish shiny surface provides a modern touch for your sauna. With the control panel separate and easy-to-use control switches you can adjust the heater's temperature and timer to start whenever you need it ready – such as after an exercise session or a workday. The heater can be installed in both left and right-handed directions. The practical form provides more flexibility when designing a sauna interior, for example, The BFE can be integrated in the sauna bench.

BFE seri

#### TECHNICAL DATA

For more technical information, see page 24-25

## Strong, practical and simple yet stylish electric heaters

### Boxer Heater Commercial A-seri

The Boxer BCA heater's strong structure and exceptional ease of maintenance make it excellently suitable for those who use the sauna often and like to enjoy the steam for long periods of time. All connections to the BCA heater are made through the maintenance hatch on the front. There is plenty of room around the connections. The heating elements are separated from the stones, which results in a long heating element life span. If you need to replace a heating element, it is a quick and easy task, as you can just pull out the entire heating element module. Other maintenance measures were also taken into account in the heaters' design from the very start.

# The safest, simplest, and most comforting infrared experience

## Boxer Infrared Panels

Infrared Panels are fiber-coated panels that generate heat using infrared radiation. They provide an energy-efficient source of soothing, therapeutic warmth, making them an effective addition to a sauna room.

- » Material frame: Cedar / Hemlock wood
- » Fibercoated infrared panel
- » Ready to connect
- » Use for customized infrared saunas or as a spare part for standard Infrared sauna rooms

Boxer Infrared Panels

### TECHNICAL DATA

Model	Power W	Infrared Type	Sauna Room (Min - Max)		Voltage	Dimensions (W-D-H)			Wire (mm2)	Wavelength	Control	Fuse

## Control units

# Control with just a touch

## Boxer AT control unit

The Boxer AT control unit provides a modern and subtly stylish interface for controlling the heart of the sauna, be it a traditional electric heater, Combi heater with a steamer. The compact yet clear touch control panel can be surface-mounted in almost any space – sauna, washroom, dressing room or even the living room. The control panel shows you when the sauna is at the right temperature for bathing.

# SmartHome Solutions

## Boxer CX WIFI remote kit

The modern and stylish Boxer CX WiFi remote kit is a sauna control panel that you can connect to the Boxer CX control unit. The control panel can be connected to a wireless LAN, allowing you to enjoy wireless functions with the MyBoxer mobile application.

The MyBoxer mobile application enables the remote control of functions on the control panel, such as temperature and humidity control, lighting, ventilation, temperature calibration, memory function in case of power out ages, timed starting, and use of a weekly scheduler.

The features vary depending on the devices attached to the system. Boxer CX WiFi enables a variety of installation options and can also be easily installed afterwards to replace the old control panel.

The door sensor of the sauna's remote starting status can be activated straight from the control panel. Learn more about the free MyBoxer application in Google Play or Apple App Store!

# More power for the control units of electric heaters

The Boxer power extension unit is for expanding the output ranges of control units. The power extension unit is used for controlling electric heaters in public saunas in connection with the Boxer AT/LED-Z / CX control unit.

## BOXER STEAM GENERATORS

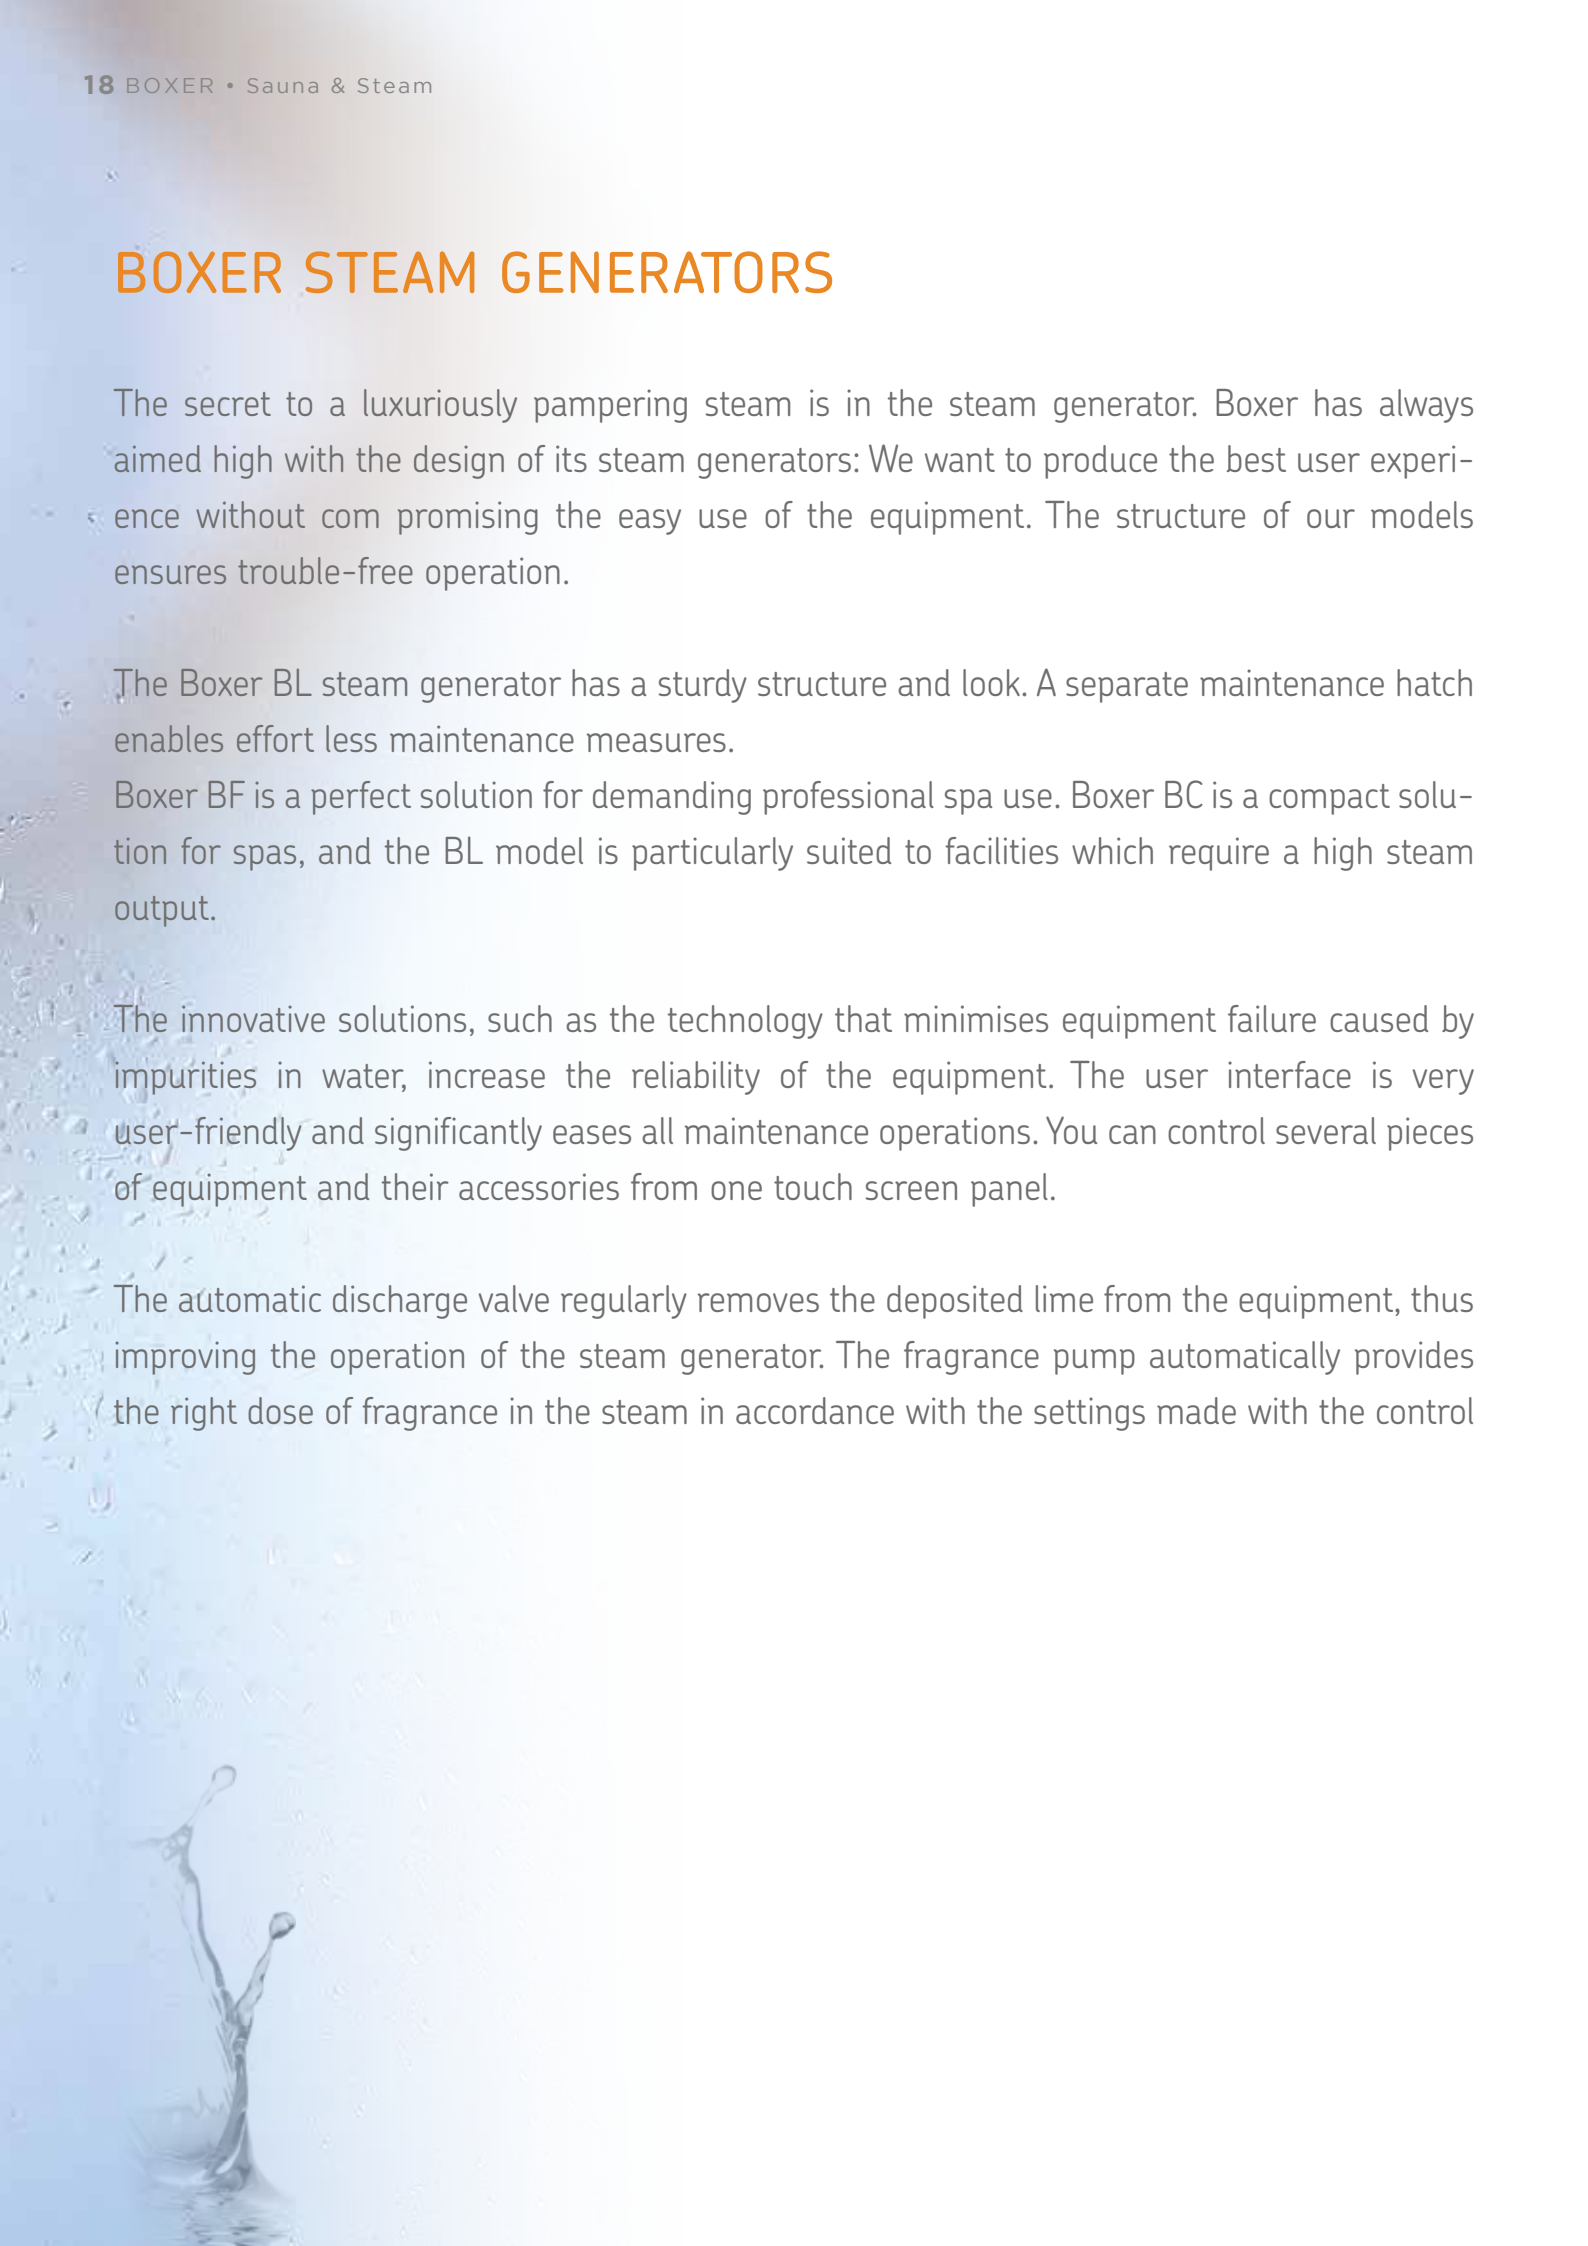

The secret to a luxuriously pampering steam is in the steam generator. Boxer has always aimed high with the design of its steam generators: We want to produce the best user experience without compromising the easy use of the equipment. The structure of our models ensures trouble-free operation.

The Boxer BL steam generator has a sturdy structure and look. A separate maintenance hatch enables effort less maintenance measures.

Boxer BF is a perfect solution for demanding professional spa use. Boxer BC is a compact solution for spas, and the BL model is particularly suited to facilities which require a high steam output.

The innovative solutions, such as the technology that minimises equipment failure caused by impurities in water, increase the reliability of the equipment. The user interface is very user-friendly and significantly eases all maintenance operations. You can control several pieces of equipment and their accessories from one touch screen panel.

The automatic discharge valve regularly removes the deposited lime from the equipment, thus improving the operation of the steam generator. The fragrance pump automatically provides the right dose of fragrance in the steam in accordance with the settings made with the control

## Best choice for Economical use

### Steam Generator Economical – BC seri

The BOXER BC steam generator is a source of well-being and relaxation. Create a spa atmosphere in your home, let the warm steam caress your senses and forget your hectic everyday life for a moment. Boxer BC is also a reliable solution for spas, family providing perfect moments of indulgence for your customers. The steam generator can also be equipped with an accessory touch control panel to create ethereal fragrances and an atmospheric lighting in your steam room. In the course of more than 10 years, Boxer Inc has grown into the world's largest steam generator manufacturer to create perfect spa experiences to match your dreams.

## Relaxing steam experience, at Home or Spa

### Boxer Steam Luxury - BL

The Boxer BL steam generator is a source of well-being and relaxation. Thanks to its easy-care structure and large water container, BL is also excellently suited for heavy-duty spa use – tasked with providing your customers with perfect moments of relaxation for the mind and body, 24/7.

The touch-screen control panel of the steam generator allows you to easily add to the atmosphere with the help of lighting and fragrances. You can control all the steam generators in your spa with one control panel. The perfect steam sauna experience is guaranteed by Boxer's more than 10 years of experience in heat technology as a source of well-being.

### Multifunction module

Heat, MP3, FM, inside and outside light, RGB LED light, fan, AUX(UV/Oxygen bar etc.)

## Safe and easy remote control of your sauna

Boxer SmartHome solutions, combined with the MyBOXER mobile app, have been designed to allow the safe and easy remote control of your sauna. These solutions allow you to switch on the sauna heater remotely and control other features that will save energy, as your sauna will be ready exactly when you are.

You can control the features of the Boxer smarthome control panel from your mobile device from anywhere and at any time using the MyBOXER / SmartLife mobile app.

# Complete your sauna with Boxer accessories

## Boxer accessories

### Legend sauna accessories

The Legend sauna accessory selection includes a ladle, water bucket, thermometer, firewood rack and clothes hanger. The ladle, water bucket and firewood rack have wooden handles made of wood that does not get too hot in the heat of the sauna. The thermometer and clothes hanger are made out of heat-treated aspen and finished with black steel details. You can see the spirit of craftsmanship in all Legend sauna accessories.

### Sauna accessories set

The Boxer sauna accessories set includes a stainless steel bucket and ladle and an easy-to-read thermo/hygrometer. The Boxer sauna accessories set goes with your sauna like water goes with the sauna stones and puts a finishing touch on your stylish interior design scheme. Stainless steel withstands changes in humidity and temperature remarkably well, making it a long-lasting material for heavy-duty use. The handles are made of non-heating wood that is pleasant to take a hold of. The Boxer sauna set is also a great idea for a high-quality gift.

### Bucket

The Boxer wooden buckets (4/7 l) and pail are high-quality work. The plastic inner part gives the product a longer life and makes cleaning easy.

### Sauna ladle

A wooden sauna ladle can be treated with products suitable for the wood surfaces in the sauna, if desired. Ladle length: 36 / 48 cm. There is a loop at the end of the ladle for hanging the product. Allow the ladle to dry after every sauna bath.

### Stool

The stool is made out of alder. You can use products intended for the wood materials in the sauna to treat the stool.

### Thermometers & hygrometers

Choose reliable quality with Boxer accessories. The Boxer thermometers and hygrometers reliably indicates the air temperature and humidity level in your sauna. Enjoy a sauna experience that is exactly as hot and humid as you like.

### Boxer by Luhta textiles

Boxer by Luhta sauna textiles are made of high-quality waffle linen cotton that feels pleasant on the skin and gives the towels a modern, natural look. The textiles have excellent absorption capacity and dry up quickly after use. The simply stylish and timeless design completes your sauna experience, and it is nice to wrap a large towel around your-self after a relaxing sauna session.
